Ms. Abi  
Principal

Dear KCC Families,

This week, our RR focus is on the IB Learner Profile attribute Risk-Taker. Being a risk-taker means having the courage to try new things, challenge oneself, and step into the unknown, even when it feels a bit daunting. This quality is essential for our students as they prepare for life beyond school, helping them grow into resilient, adaptable, and confident individuals.

Here are three ways families can nurture risk-taking skills at home:

- **Encourage Trying New Things:** Support your child in exploring different activities, whether it's picking up a new sport or discovering a new hobby. Remind them that mistakes are a valuable part of the learning journey.
- **Celebrate Effort, Not Just Success:** Acknowledge your child's courage to take on challenges, regardless of the outcome. This helps them value the experience of trying, which fosters growth.
- **Model Positive Risk-Taking:** Share your own stories of times when you took a risk and what you learned. Seeing that adults also take chances, and grow from them, can be inspiring.

Connection

Of course, in school, we aim to reduce unnecessary risks and create a safe environment where students are risk-aware, not risk-averse. This approach aligns with the UAE's spirit of innovation and progress, taking bold steps forward with responsibility and awareness.

We're also incredibly proud of Miss Anod, our Health and Safety Lead, who has just passed her NEBOSH certification! This internationally recognized achievement underscores her dedication to maintaining a safe environment for our students and staff.

And a very special thank you to Miss Whitney and Miss Jen for their hard work in organizing this Saturday's Math Summit! We're excited to host over 300 teachers from across the Middle East, all gathering at Raha to celebrate and enhance their passion for math. With 300 math enthusiasts under one roof, we might just solve some of the world's biggest equations! Or, at the very least, finally answer that age-old question: Why was the math book so sad? ... Because it had too many problems!

Last but not least, a huge thank you as well to our facilities and operations teams, who are busy preparing to make this event a success. With so many math enthusiasts in one place, we're sure it'll be an addition to remember!

Thank you for your ongoing support, and here's to another inspiring week of learning, growth, and community.

Abi
